Experience

Research Experience

- May 2016 – Present **PhD Student**, *University of New Brunswick*.
- Main research topic: Big data analytics for the Internet of Things data streams (Funded by Cisco).
- Oct 2014 – Nov 2015 **Research Associate**, *University College Dublin*.
- Project: High performance computing for massive LiDAR Data processing.
- Jun 2011 – Aug 2014 **Researcher**, *University of Information Technology, VNU-HCM*.
- Project: Implementing a musical fountain controlling system based on the frequency analysis

Industry Experience

- Dec 2017 – Present **Cloud Administrator**, *People in Montion Lab*.
- Managed and operated the cloud infrastructure systems provided by Compute Canada.
- Oct 2010 – Mar 2011 **Embedded System Developer**, *CanhViet Co, Ltd.*.
- Built smart, embedded systems and automatically musical fountain controlling system.
- Jan 2008 – Jan 2009 **Senior Member**, *CERobo Team of UIT*.
- Senior member of the team representing for UIT took part in Vietnam Robot Contest 2008.

Teaching Experience

- 2011 – 2017 Involved many teaching activities at UIT and UNB - (Please visit [my website](#) for details)
